In Association With
Ayan Enterprises & Dryft Dynamics Pvt. Ltd.

ABOUT LOGIC LOOP

Logic Loop in association with Ayan Enterprises and with Dryft Dynamics Private Limited offers a powerful alliance dedicated to transforming academic institutions across India. United by a shared vision, we are committed to helping colleges and universities not only meet but exceed the standards set by the National Assessment and Accreditation Council. Through this partnership, we provide end-to-end support in:

- Improving NAAC scores by aligning institutional operations with the latest accreditation frameworks.
- Enhancing digital infrastructure by deploying cutting-edge ICT solutions, cloud platforms & automation tools for academic, administrative & student centric functions
- Promoting sustainable development by building scalable systems & practices that support long-term institutional growth & educational excellence.

Logic loop together with Ayan Enterprises & Dryft Dynamics bring unmatched industry experience, technological innovation & strategic consulting to empower institutions in their pursuit of quality, accountability and recognition.

MISSION

To become a leading force in India's higher education ecosystem by enabling institutions to meet & exceed national quality benchmarks. We envision a future where every college and university is equipped with intelligent systems, green practices & transparent processes that foster academic integrity, continuous improvement & global competitiveness. Through strategic collaboration and technological empowerment, we strive to elevate the standards of higher education & contribute meaningfully to nation building.

OUR MISSION AND VISION

We empower educational institutions across India with digital solutions, sustainable infrastructure, and expert consulting to enhance teaching, governance, & compliance with NAAC, UGC, and AICTE frameworks—transforming them into smarter, future-ready campuses.

YOUR NAAC JOURNEY, **OUR EXPERTISE**

Whether your institution is preparing for its first NAAC accreditation or striving to upgrade to a higher grade, we offer a comprehensive suite of services designed to align your operations with the highest quality standards. Our expert-driven approach ensures that every aspect of your academic and administrative functions is NAAC-ready & future-focused. Here's how we help:

Outcome-Based Education (OBE) Implementations

We assist in designing and implementing OBE frameworks that focus on measurable learning outcomes, curriculum mapping, and student performance analytics — key pillars for NAAC success.

Comprehensive Documentation Support

Our team provides end-to-end support in preparing and organizing institutional records, reports, and evidence, ensuring seamless documentation for Self-Study Reports (SSR), AQAR, and DVV submissions.

Automation & Digital Tools

We deploy customized software solutions that streamline academic and administrative workflows—ranging from feedback systems and performance tracking to IQAC documentation & ERP integration—enhancing transparency & efficiency.

Faculty & Staff Training Programs

We conduct targeted training sessions & capacity-building workshops for faculty & administrative staff to strengthen understanding of NAAC processes, outcome-based education, and quality benchmarks.

Campus Infrastructure Modernization

From smart classrooms & labs to eco-friendly initiatives like rainwater harvesting & waste management, we support campus enhancements that contribute to qualitative growth and positive peer team impressions.

100% Compliance with UGC, AICTE, and NAAC Guidelines

Our team ensures that your institution meets all the mandatory criteria set by regulatory bodies, minimizing gaps and maximizing your readiness for assessment.

With a strategic academic planning, technology enablement, & compliance assurance, we empower institutions to not just qualify—but excel—in NAAC accreditation journeys.

SERVICES

WE OFFER

A strategic blend of technical innovation, sustainability & institutional compliance drives responsible & future-proof growth. Technical innovation enhances efficiency & quality by integrating new technologies & digital tools. Sustainability ensures long-term environmental & social balance through eco-friendly practices & resource efficiency. Institutional compliance maintains credibility by aligning operations with legal & regulatory standards. When combined, these three pillars empower organizations to achieve lasting success & societal impact through ethical, innovative, & resilient practices.

Our Core Services for Smart & Sustainable Campuses

Green Audits & Plant Biodiversity Mapping

Promoting eco-friendly campuses through environmental audits, plant classification, and actionable sustainability reports.

IT & ITeS Solutions

Delivering enterprise-grade IT & ITeS services—from system integration to process optimization—tailored to meet the unique needs of institutions.

Custom Software Development

Developing secure, scalable, and intuitive software solutions that streamline both academic and administrative operations.

Network & Server Infrastructure

Designing and deploying robust campus-wide networks, secure server environments, firewalls, and performance-optimized infrastructure.

Cloud Migration & Management

Offering secure, scalable, and cost-effective cloud solutions to manage institutional data and digital resources with ease.

Mobile App Development (Android & iOS)

Creating student-focused mobile apps to support learning, administration, communication, and engagement—anytime, anywhere.

Cybersecurity & IT Audits

Protect your data with in-depth cybersecurity assessments, vulnerability detection, and compliance-driven IT audits.

FLAGSHIP PRODUCTS

We offer a diverse portfolio of smart infrastructure solutions designed to enhance learning environments, promote sustainability, and ensure campus safety and convenience. Our services include:

Autolib™ – Integrated Library Management System

A complete library automation system for cataloguing, circulation, OPAC, and digital resources. Streamlines every aspect of library management for a seamless UI & UX

QAAS™ – Quality Assurance & Assessment Software

Designed to track IQAC metrics & generate reports aligned with NAAC criteria. Facilitates continuous quality improvement through structured & planned documentation.

ILMS™ – Integrated Learning Management System

Centralized access to e-content, assessments, progress tracking, & blended learning. Enhances student engagement and faculty efficacy through digital learning tools.

TAPS™ – Teacher's Assessment Software

This Assessment System automates the faculty feedback, evaluation analytics, & peer reviews. Empowers institutions with data-driven insights to improve teaching quality.

OSAP™ – Online Student Admission Platform

Simplifies student enrollment, merit list generation, document verification, and fee collection. Accelerates the admission process while ensuring transparency and accuracy.

CIMS™ – Campus ERP cum CRM

A unified system for admin tasks, academic tracking, HR, fees, & communication. Connects departments and stakeholders through a centralized digital workflow process.

eGovernance Mobile App

A complete governance solution for students, staff, and management at your fingertips. Enables real time communication, updates, and operational control on the go.

Dynamic Web Portal

NAAC-compliant, mobile friendly websites that reflect your academic excellence. Boosts institutional visibility with a dynamic and informative online presence.

Language Lab Software

Enhances English communication and soft skills training with audio-visual support. Transforms language learning into an interactive and immersive experience.

OUR TEAM

We offer a diverse portfolio of smart infrastructure solutions designed to enhance learning environments, promote sustainability, and ensure campus safety and convenience. Our services include:

ASSISTING IN AUDITS AND **CERTIFICATIONS**

We assist educational institutions, corporate organizations, and public sector bodies in attaining globally recognized ISO certifications, helping them establish credibility, streamline operations, and ensure compliance with international standards. Our expert team provides end-to-end support, from documentation and training to audit preparation and liaison with certification bodies.

Our key certification offerings include:

ISO 9001:2015 – Quality Management System (QMS): Enhances institutional & organizational efficiency by implementing structured quality control processes that promote continuous improvement, stakeholder satisfaction, & operational excellence.

ISO 14001:2015 – Environmental Management System (EMS): Empowers institutions to manage environmental responsibilities by sustainable practices, legal compliance, & resource optimization—essential for organizations committed to green operations.

ISO 27001 – Information Security Management System (ISMS): Specifically tailored for IT, ITes, and data-sensitive institutions, this certification establishes robust frameworks for securing digital assets, mitigating risks, and ensuring data integrity.

INFRASTRUCTURE DEVELOPMENT

We offer a diverse portfolio of smart infrastructure solutions designed to enhance learning environments, promote sustainability, and ensure campus safety and convenience. Our services include:

Smart Classrooms

These classroom systems integrate interactive digital boards, high-definition projectors, touch-based learning interfaces, & cloud enabled content delivery.

Rainwater Harvesting

We design and install fully functional rainwater harvesting units to help the institutions conserve water, reduce dependency on groundwater.

Vermicompost Structures

Support green campus initiatives with our custom built vermicomposting setups, which convert organic waste into high quality compost.

Fire Safety Equipment

Ensure campus safety with our certified fire safety solutions, like installation of fire extinguishers, smoke detectors, fire alarms, and emergency exit signage.

Automated Vending Machine

Enhance convenience on your premises by installing vending machines for various purposes. Our machines are designed for high-traffic areas.

Logic Loop empowers institutions with next gen digital solutions designed to strengthen NAAC performance.

15
YEARS OF
EXPERTISE

OUR QUALITY IMPROVEMENT ICT BASED PROCESS

At Logic Loop, we integrate technology with academic excellence through structured quality improvement processes. Our solutions are tailored to enhance institutional governance, streamline workflows, and boost NAAC readiness.

- **IQAC Module**
We design and implement customized ICT-based IQAC (Internal Quality Assurance Cell) modules that simplify planning, monitoring, and reporting, ensuring compliance with NAAC criteria.
 - **Quality Audit**
Regular ICT-enabled quality audits to assess academic and administrative performance, identify gaps, and provide actionable insights for continuous improvement.
 - **Standard Operating Procedures & Task Management**
Formulating SOPs and digitized task management systems to standardize operations, reduce errors, and ensure accountability across departments.
 - **Quality Policy and Implementation with Feedback**
Drafting institution-specific quality policies, monitoring their execution through digital tools, & collecting feedback to measure effectiveness & outcomes.
 - **Academic and Administrative Audit (AAA)**
Comprehensive ICT-assisted audits that evaluate teaching, learning & administrative processes, aligned with NAAC benchmarks and governance standards.
 - **Workshops for Non-Teaching Staff**
Capacity-building workshops and digital literacy programs for non-teaching staff, enabling them to adapt to ICT systems & support institutional goals.
 - **MIS & College Automation, ICT Implementation**
Deployment of MIS (Management Information Systems) and automation tools to integrate admissions, examinations, HR, finance, and learning management into a unified digital ecosystem.
 - **Assistance in Documentation for All NAAC Questions**
Structured digital support for preparing, maintaining, and presenting documentation for every NAAC criterion, ensuring accuracy, transparency & readiness for peer team visits.

ASSESSMENT DOCUMENTATION LIKE NAAC, ETC

At Logic Loop, we specialize in helping higher education institutions navigate the complex requirements of the National Assessment & Accreditation Council (NAAC). With deep expertise in academic compliance & institutional quality assurance, we partner with colleges to prepare complete, accurate & audit-ready documentation that meets NAAC's standards.

- Prepare & organize mandatory documentation—including IQA, SSR, AQAR, & Criteria specific reports.
- Collect, validate, & structure institutional data to align with NAAC'S 10 criteria framework.
- Draft clear, compliant narratives that highlight your college's strengths, and quality initiatives.
- Design supporting formats for academic, administrative and extension activities.
- Train internal teams on data collection, record keeping & quality improvement for future cycles.

WHY CHOOSE LOGIC LOOP?

Proven Expertise, Experienced in NAAC documentation.

End-to-End Support, Assistance from start to submission.

Customized Solutions, Services tailored to your institution.

Result-Oriented, Focused on boosting NAAC grades.

Boost your institution's NAAC performance with Logic Loop's expert - driven digital solutions. Our result focused approach aligns ICT infrastructure, data security, and governance with NAAC, UGC, & ISO standards — ensuring measurable outcomes, seamless compliance, and sustainable academic excellence.
